Rishabh Kushwaha

Bengaluru, Karnataka | +91 6307914345 | rishukush08@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Detail-oriented Computer Science graduate with hands-on experience in **KYC/VKYC operations, customer identity and document verification, data validation, discrepancy identification, and compliant digital onboarding** at Navi. Familiar with **KYC/AML processes, Customer Due Diligence (CDD), case documentation, exception handling, and process compliance**. Strong analytical, communication, and problem-solving skills with experience handling customer information accurately and confidentially.

KYC & RISK COMPETENCIES

KYC/Compliance: KYC Verification, VKYC, Customer Identity Verification, Document Verification, Customer Due Diligence (CDD), AML Process Awareness, Customer Information Validation, Customer Onboarding, Case Documentation, Process Compliance
Risk & Operations: Discrepancy Identification, Exception Handling, Case Review, Data Validation, Pattern Recognition, Anomaly Detection, Issue Escalation, Record Maintenance
Data & Tools: MS Excel, Google Sheets, SQL, MySQL, Python, Pandas, Scikit-learn
Communication: Customer Communication, Written Documentation, English, Hindi

PROFESSIONAL EXPERIENCE

Navi Finserv — **Bengaluru, India**
VKYC Associate – Product Operations — *Jun. 2026 – Present*

- Perform **customer identity and document verification** for digital onboarding, maintaining accuracy, completeness, data integrity, and confidentiality.
- Validate customer-provided information and documentation while identifying **discrepancies and exceptions** for appropriate resolution or escalation.
- Follow defined **KYC/AML procedures, process guidelines, and documentation requirements** while processing customer verification cases.
- Maintain accurate customer records and complete verification activities within defined process timelines, supporting consistent and compliant onboarding.
- Handle verification-related customer issues and coordinate with internal teams to resolve exceptions and support a smooth digital onboarding experience.

Projects

Credit Card Fraud Detection
Python, Pandas, Scikit-learn — *Feb. 2026 – Apr. 2026*

- Built a machine-learning model to identify potentially fraudulent credit-card transactions using Python, Pandas, and Scikit-learn.
- Cleaned and preprocessed transaction data, handled the highly imbalanced fraud classes using [SMOTE / class weights / undersampling], and prepared features for analysis.
- Trained and compared [Logistic Regression, Random Forest, XGBoost] models; evaluated performance using precision, recall, F1-score, and ROC-AUC to reduce missed fraud cases.

Cyberbullying Hate Detection
Python, NLP, Scikit-learn, Hugging Face, PyTorch — Team Project — *Aug. 2025 – Jan. 2026*

- Constructed and manually annotated a 4,940-sample Hinglish dataset from multi-source social-media data; validated label quality with 0.92 Cohen's Kappa agreement.
- Built a reproducible NLP pipeline using regex cleaning, Hinglish normalization, and TF-IDF unigram/bigram features; used an 80:20 stratified train-test split to preserve class balance.
- Compared Linear SVM, Multinomial Naive Bayes, and fine-tuned MuRIL transformer models; the SVM achieved 97.2% precision, recall, F1-score, and accuracy on the held-out test set.

Education

United Institute of Technology / AKTU — **Prayagraj, Uttar Pradesh**
Bachelor of Technology in Computer Science & Engineering — 81.09% — *2022 – 2026*

Erny Memorial School — **Prayagraj, Uttar Pradesh**
Intermediate — 78.21% — *2020 – 2021*

Bishop Johnson School — **Prayagraj, Uttar Pradesh**
High School — 88.67% — *2018 – 2019*

CERTIFICATIONS & ACHIEVEMENTS

- **Diploma in Fraud Management & Anti-Money Laundering Awareness** – Alison, 2026
- **Tata GenAI Data Analytics Virtual Experience Program** – Forage, 2025
- **2nd Place – Cybersecurity Challenge** – Security Fundamentals & Threat Defense Bootcamp, MNNIT, 2025
- **Machine Learning Course** – Soft Pro India, 2024
